MAR-GOM s.r.l.

About Us

Founded in 1984, Mar-Gom is a company focused on production and commercialisation of technical rubber, rubbermetal and plastic items.

Mar-Gom is able to plan and realize products, through sample or technical drawing, autonomously or following a coengineering logic, in order to support customers in all steps required, from design to supply.

Mar-Gom, thanks to its flexibility, fulfils both large and small enquiries.

Mar-Gom's products find application in more than 60 fields, both industrial and civil.

Mission

PLANNING

- Classic
- Reverse Engineering

PRODUCTION

- Rubber
- Plastic

Planning

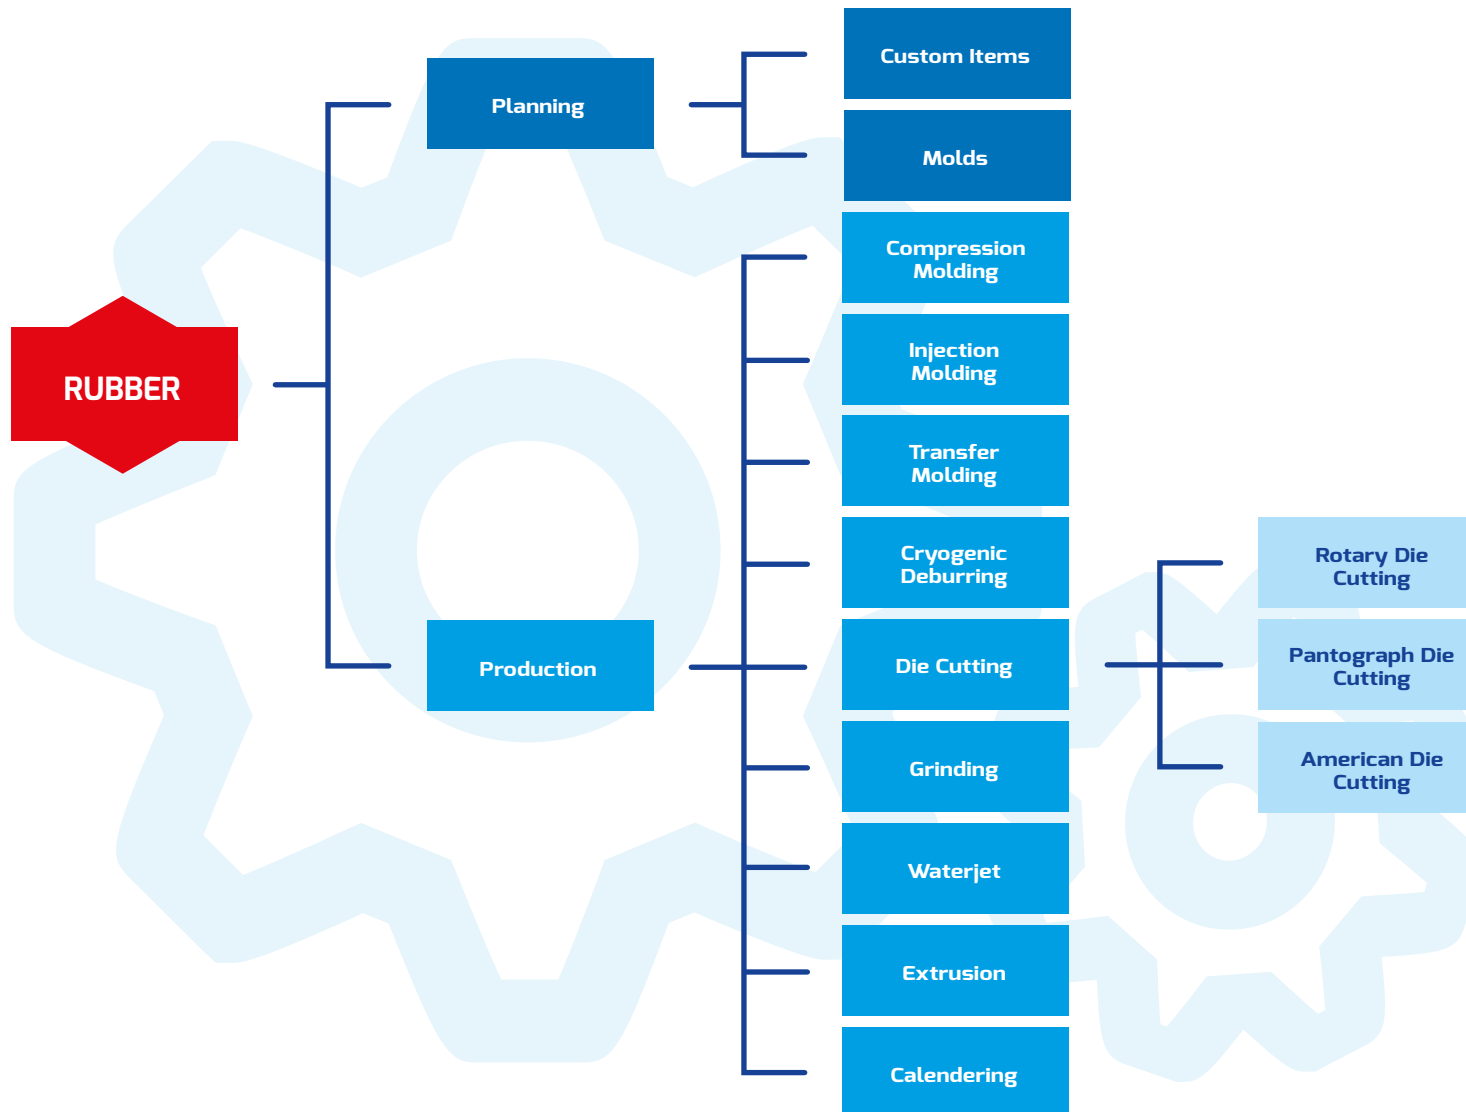

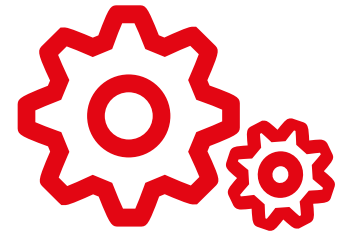

Planning can be both classic and reverse.

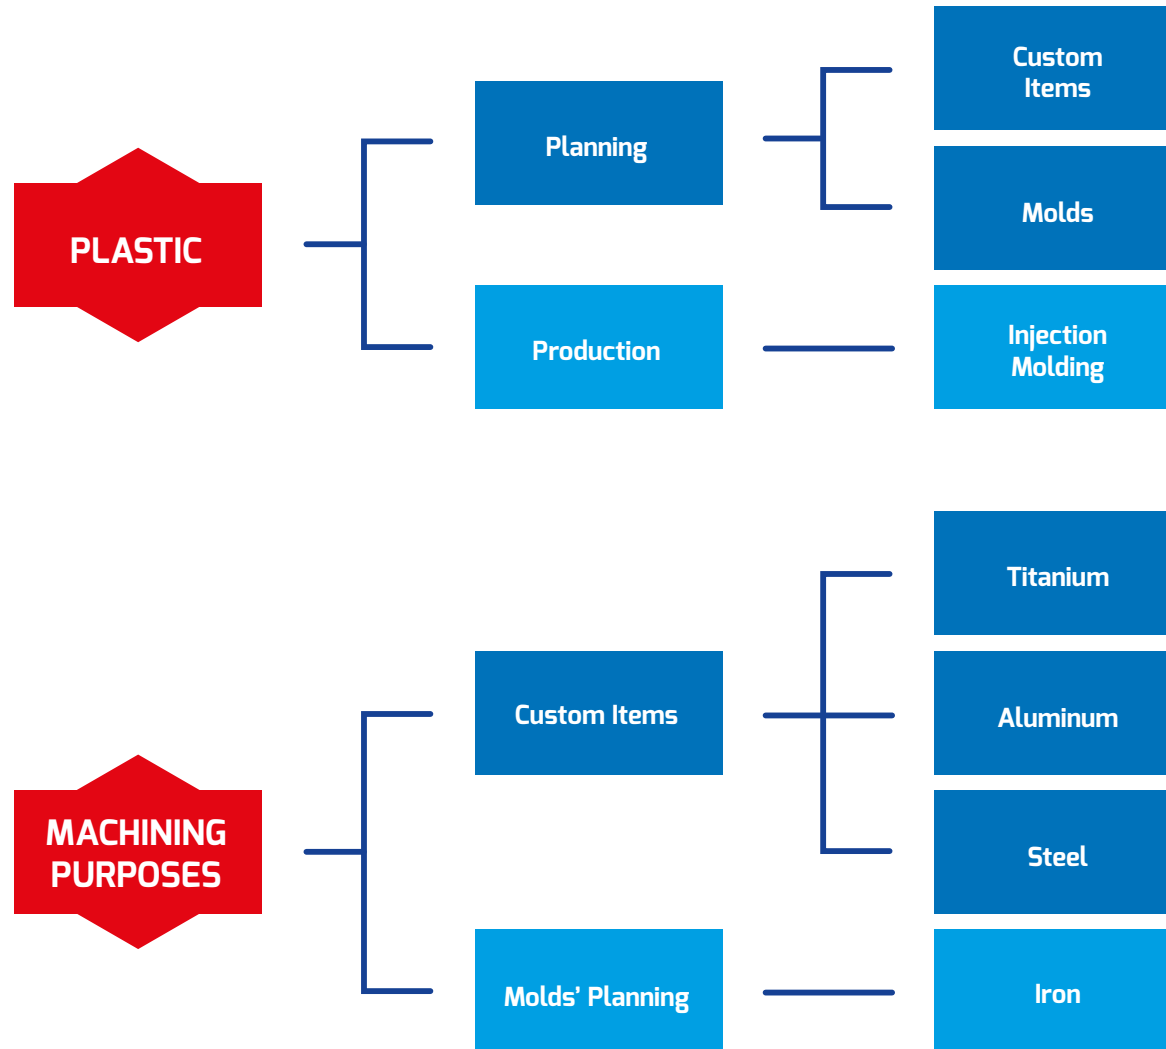

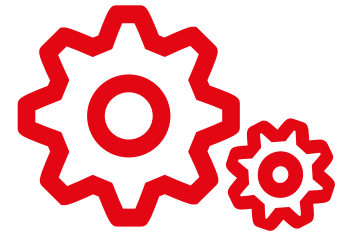

The first case provides for the realization of a pilot mold following the customers' requests. The second case includes the process of extracting design information from the man-made article in order to create the 3D-model which allows to modify or replicate the item analyzed.

Quality

Mar-Gom, thanks to its knowledge and the accuracy during planning's phase, guarantees high levels in terms of quality and speed in execution. All these features afford us to receive the international quality certification ISO 9001:2008. In order to preserve these standards, Mar-Gom supervises all industrial performances: planning, logistics, product developments.
